DEPARTMENT OF COMPUTER SCIENCE

Letter of Recommendation

Mr. Shahryar Khan approached me for writing a letter of recommendation for his admission in your University as a graduate student. I am pleased to write this letter in support of Mr. Shahryar who has been one of my students at the Department of Computer Science, COMSATS University Islamabad, Wah Campus.

During his stay at COMSATS, I found him one of the best students I dealt with. I have watched him growing and seen his talents and abilities not only in the classroom but outside its walls, when interacting with all types of people, as well. He is diligent, aggressive, and self-starter. He has a very inquisitive mind and does not wait to be told to investigate or analyze problems; he has the ability to recognize and initiate what needs to be done. Mr. Shahryar possesses a strong capability to undertake rigorous coursework and leading edge research activities. Furthermore, he can actively engage in numerous challenging tasks concurrently without compromising the work-quality.

One of his matchless talents is the ability to grasp technically strenuous material on his own and come up with genuine and striking ideas. Due to his creative mind and inherent hard working nature, Mr. Shahryar is expected to achieve a genuine development in any research area he will be involved in.

I believe that Mr. Shahryar would be an excellent addition to any research team. I hope you will also find Mr. Shahryar's attributes and potential attractive and I hope that you will favorably consider his application for the Postgraduate study in your University.

I wish him best of luck.

Dr. Muhammad Wasif Nisar
Associate Professor/HoD
Department of Computer Science
COMSATS University Islamabad
Wah Campus – Pakistan
